

# Citrus Overpass Bridge Repairs

- Project Limits: South US Highway #1 to South 2nd Street.

**Total Project Cost:**

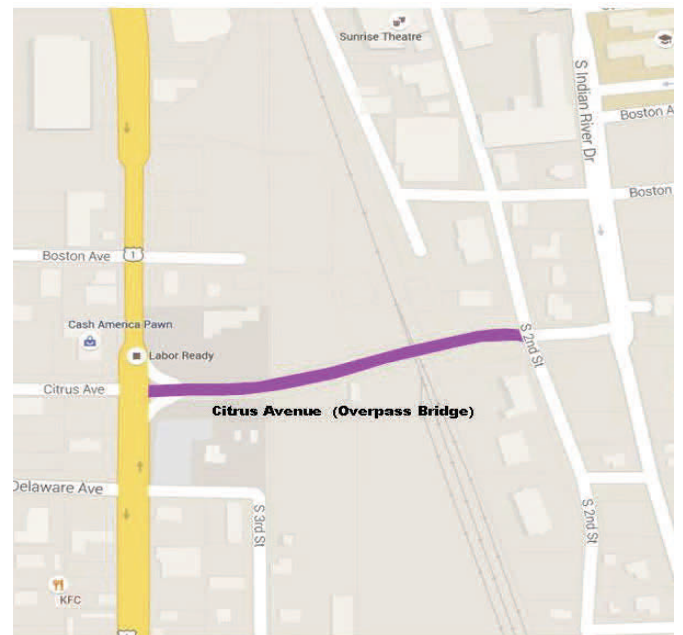

**Engineering: \$ N/A**

**Construction: \$325,000**

**Unfunded Balance:  
\$325,000**

## Project Summary

This project entails performing maintenance work as outlined by the biennial bridge inspection report. Deficiencies include: concrete spalling, exposed rebar, failed compression joints, understructure paint and deck joints seals. The Florida Department of Transportation provides a bridge inspection every two years to find any deficiencies in the structure. The latest inspection was provided in December 2012. This work is required to maintain the overall health of the structure.

## Project Benefits

Repairs of the 0.1 mile bridge insures safe transportation in the city, beneficial to everyone.

## Project Costs

Engineering: \$ N/A

Construction: \$325,000 - **Unfunded**
